

Click™ Portal for Animal Operations

Configurable Software for Vivarium Business Processes

Improve vivarium staff and researcher productivity by streamlining animal operations processes with Huron's Click™ Portal software. Replace multiple, time-consuming steps—including those associated with ordering, receiving, census management, and invoice generation and tracking—with a centralized, automated system that integrates and accelerates animal laboratory business processes.

The Click Portal system optimizes use of vivarium resources, provides instant access to animal lab business data, and simplifies compliance reporting. Secure, personal workspaces enable stakeholders to initiate and manage activities for each protocol. Management dashboards provide tabular views of pending and actual deliveries, animals received, census, and invoices.

Only Click™ Portal

- Enables customer configuration to match your forms and workflow processes
- Enables open integration with your IACUC, accounting, and automated census systems
- Enables sharing of best practices via the industry's most active user group
